PROFILE

Motivated and detail-oriented **Information Technology student** at Debre Berhan University with a strong passion for software engineering, full-stack development, and problem-solving. Skilled in designing and developing efficient software solutions using modern programming technologies. Proficient in **Java, Python, C++, PHP, and MERN stack** with hands-on experience building full-stack applications and solving real-world technical challenges. Currently gaining industry exposure through an internship at Ethiopian Information Technology Park. Known for analytical thinking, adaptability, continuous learning, and commitment to delivering clean, scalable, and high-quality software solutions.

EXPERIENCE

JUNIOR FULL-STACK DEVELOPER.

Managed the design team and mentored junior designers to improve design quality and efficiency. Created wireframes, prototypes, and high-fidelity mockups for a variety of web and mobile projects. Worked closely with clients to understand their needs and goals and translate them into effective design solutions.

EDUCATION

Bachelor of science in Information Technology
Debre Berhan University
2024 – Present

Key Area of study:

- Web development
- Artificial Intelligence
- Data structure and Algorithm

HOBIES

- Coding
- Playing Chess
- Exploring new technologies and innovations
